NEW SIGNALS AT BETHEL CROSSING — Flashing signals were installed Wednesday at the grade crossing in Bethel village by the Canadian National Railroad. In the memory of the majority of local citizens only a

crossing sign, a flashing-light and bell combination marked the crossing. This past summer highway markings had been painted in three locations adjacent to the crossing. The signals may lessen the hazard at this location.

This will be a supper meeting and reservations are necessary. Final plans for the program are being completed and should be ready for release early next week.

PROTECT YOUR DOGS AND CATS AGAINST RABIES!

Rabies in foxes and a flock of sheep has been disclosed in Franklin and Oxford counties during the past year.

Immunizing all dogs and cats against rabies is one of the ways to prevent the spread of this dangerous infection among domestic animals and perhaps to human beings.

If you have a dog or dogs, 4 months old or older, which have not already been immunized against rabies within a year, you are urged to bring them to the free clinic listed below, to be vaccinated against rabies. Dogs vaccinated against rabies within a year may be brought in for a "booster shot" if the owner so desires. A State Veterinarian will be on hand to vaccinate the dogs and cats without charge.

Caution: Owing to the presence of rabies, children should be discouraged in handling or making pets of wild animals.

Free Vaccination Clinic Schedule in this area:

Magalloway, Town Hall, October 24, 1967, 1-2 p. m.

Upton, Judkins Market, October 24, 1967, 3-4 p. m.

Andover, Town Hall, October 25, 1967, 8-9 p. m.

Bethel, Fire Station, October 25, 1967, 9-11 a. m.

Rumford, Armory, October 26, 1967, 9-12 a. m.

Note: People from surrounding communities bring your pets to one of the clinics listed above for your free Rabies Vaccination. Your cooperation is necessary in order to bring Rabies under control in your community. October 21.

SORRY ABOUT THAT!

Snow travel users in this area will be pleased to learn that the new State of Maine law regarding snow vehicles is not to be in effect this coming winter. An article in last week's Citizen said they would be in effect at the season's "first snowfall." Section 2 of the Act states that it shall be in effect July 1, 1967, and for subsequent years until changed by legislative enactment.

COMMENTS FROM THE TOWN MANAGER'S OFFICE

The Town Office will be closed Wednesday, October 25th so that the manager and deputy tax collector, Mrs. Eames may attend the annual Maine Municipal Association convention in Portland. Mrs. Bennett, town clerk, will also attend. These sessions are very helpful to all town officials, as they instruct us in the application of new laws and refresh our minds in regard to the old ones.

There are copies of a booklet containing the Zoning Ordinances available at the manager's office for anyone interested. A copy will be mailed if requested. Subdivision regulations will be available under a separate cover.

The tax acquired property the town offered for sale has been sold to the highest bidder except for one parcel which the selectmen did not feel should be sold at this time.

EXPRESS TRAILER DEMOLISHED — The trailer of a tractor-trailer combination owned by Sanborn's Motor Express was demolished and the tractor damaged when struck by a freight train last Friday afternoon. The unit was crossing the tracks of the Canadian National Railroad toward Route 2 from Harold Carver's in Skillington, when the

accident occurred, spilling its cargo, principally dowsels. Reportedly losing traction on loose gravel, the truck was unable to move and was struck by a west-bound freight. The rear portion of the trailer came to rest north of the tracks. The driver, Roger Strout, escaped the cab before the crash. Mr. Strout is shown above right.

SEVEN COUNTY ACCOUNTS OVERDRAWN AT END OF SEPTEMBER

Despite cutbacks in several areas, Oxford County controversial Economic Development office once again faces another overdraft.

A third quarter financial report released Monday by County Treasurer Armand Fortier at Rumford showed the department has already overspent its \$200,000 appropriation for 1967, by \$2,537.54. And three months still remain in the fiscal year.

The development office's budget was cut from \$32,000 to \$20,000 last January when the biennial budget was prepared.

In the first 12 months of operation, the office spent \$46,294.50. This was followed by \$36,342 up to the budget period ending last Dec. 31.

Director Sam Michael of Auburn said last week he had cut back in traveling, phone bills, office expenses and noted a staff member had been out from the payroll last May.

The staff member, former Assistant Director Alfred E. Wallen, is suing Oxford County for \$10,000 as a result of his release. He claims a valid four year contract paying him \$3,000 a year was broken by the county commissioners.

The department continues to maintain a secretary whose salary is drawn from the clerk-hire account.

Fortier's financial statement showed seven county accounts overdrawn at the end of September.

The largest overdraft was in the office of county at-large, \$1,602.70 above its \$2,500 appropriation.

SAFETY COMMITTEE SAYS BETTER COMMUNICATIONS IN SEAT BELT USE NEEDED

The Highway Safety Committee reported a definite need for better communications concerning the use of seat belts.

A Committee spokesman said a prepared news release that seat belts are now in an estimated 40% of automobiles in the State, and that the value of their use is extremely underestimated.

According to the spokesman, "of 1000 people who are killed or injured in traffic accidents, about 250 are killed or injured because of the use of a seat belt is not the problem in other States." He said that Maine lags behind in this type of propagation, and should take immediate steps to catch up.

The Committee contends that most citizens elsewhere in the country are at least partially convinced that seat belts prevent death and injury, but simply refuse to use belts because they are not convinced that an accident could happen to them.

The Committee spokesman said that study of traffic accidents definitely shows that the injuries were sustained as a result of a "secondary" collision within the vehicle, and if the occupant had been held in place, the injury would not have happened. A sure stomach is a better way to stay in place than a seat belt.

The department continues to maintain a secretary whose salary is drawn from the clerk-hire account.

Fortier's financial statement showed seven county accounts overdrawn at the end of September.

The largest overdraft was in the office of county at-large, \$1,602.70 above its \$2,500 appropriation.
